Carl,

The general conformity briefing paper is attached. We plan to discuss this with you at 2:30 today but let me or Tim know if you have any questions before that.

Also, Tim's email below has the ozone design values for UGRB going back to the 2007 DV.

Tim,

Hope you had a good weekend. I made some edits in the attached. Take a look for now and we can discuss when I get in the office later this morning.

Thanks,

Scott

Hi Scott,

Here's a revised version of your document (and thanks much for that first pass!) with some additional language/info. Likely there is more than needed in my version and too, I would need to check into the current format for Callie's briefing documents.

Please see what you think and do add any edits/comments/suggestions.

Think when we get it in better shape we'll need Carl's, Sara Lauman's, and maybe the NEPA program's review.

Thanks!
